1. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art of record fails to disclose or teach the claimed rotatable mixing member rotating on a horizontally oriented axis, a motor coupled to the mixing member and rotating the mixing member in first and second opposite directions, and a sensor for detecting an occurrence of a rotation reversal condition, and a controller for generating a rotation reversal signal in response to the sensor. Although U.S. Patent No. 7,047,758 to Ross discloses a drive motor 48 for a horizontal rotatable mixing member 44, there is no disclosure for a sensor for detecting an occurrence of a rotation reversal condition or a controller for generating a rotation reversal signal in response to the sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to WILLIAM E. TAPOLCAI whose telephone number is (571)272-4814. The examiner can normally be reached on Monday-Thursday 6:30-5:00.
